IT Department / HR Department

Shinhan Bank

sbc_hr@shinhan.com

No.79, Street Kampuchea Krom Blvd (128), Phnom Penh 12251

Dear Hiring Manager,

I am writing to express my interest in the Software/Web Developer position at Shinhan Bank Cambodia Plc. I am currently a student at Passerelles Numériques Cambodia, pursuing a degree in Computer Science, and I am eager to apply my knowledge and skills in a professional environment.

During my studies, I have developed practical experience through academic projects. I worked on an Attendance Management System (VCI), where I contributed as a QA member, ensuring system quality and functionality. In addition, I participated in developing an e-commerce website using HTML, CSS, JavaScript, and Python, where I collaborated with team members using Git and GitHub. These experiences have strengthened my ability to work in a team, solve problems, and understand software development processes.

I have knowledge of web development technologies such as HTML, CSS, JavaScript, and basic backend development. I am also familiar with database concepts and API integration. Furthermore, I am continuously learning and improving my technical skills to meet industry standards.

I am particularly interested in joining Shinhan Bank Cambodia because of its strong reputation and commitment to innovation and growth. I am confident that my passion for technology, willingness to learn, and dedication will allow me to contribute positively to your team.

I would appreciate the opportunity to further discuss how my skills and background align with your needs. Thank you for your time and consideration.

Sincerely,

A handwritten signature in black ink that reads 'SAKHIM'.
